

SAFETY RECALL NOTICE 22V-618

To: All Grand Design RV Dealers

August 22, 2022

Grand Design has determined a safety defect exists in certain **2022 & 2023 Grand Design Momentum** fifth wheel equipped with the Lippert PRX1 Power Ramp Door. Accordingly, a recall to address this issue is being initiated effective August 24, 2022.

Affected vehicles include **2022 & 2023 Grand Design Momentum** produced between **November 5, 2021, and July 28, 2022**. The VIN range of affected units is:

Momentum FW - 573FM4634N1121616 through 573FM4122P1123852 (non-sequential)

The defect involves the power cut-off switch in the Lippert PRX1 Power Ramp Door. The power cut-off switch may fail allowing continuous power to the electric winch that lowers and raises the ramp door. Were the cut-off switch to fail, the winch may continue to run, allowing the cable system to unwind itself when the door is in a closed position. Were this to occur, the door could freefall when lowering causing injury to the operator.

Owners of affected vehicles will be notified of this recall by mail. A copy of the Owner Notification Letter is attached as well as detailed repair instructions and a VIN list of your affected units. Also attached are the claim filing instructions associated with this recall action.

Should you have any questions or concerns, please contact Grand Design Technical Support at 574-825-6264 or 888-825-2820 and select the phone prompt for "Recall".

Respectfully,
GRAND DESIGN RV, LLC
