[1-800-853-1403](tel:1-800-853-1403)

Details of the Recall

The windshield wiper nuts on your vehicle may not have been torqued properly during manufacturing. An improperly torqued windshield wiper arm nut can cause the wiper arm to become loose, which may result in the wiper arm failing to operate properly when the system is activated. An improperly functioning wiper system may, in certain circumstances, lead to a diminution in road visibility which can cause a vehicle crash without prior warning.

FCA US will repair your vehicle free of charge (parts and labor). To do this, your dealer will tighten the wiper arm nuts to the required torque. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
