INTERIM NOTICE

ATTENTION: ALL DEALER PARTS & SERVICE MANAGERS

This is an interim notice as we work on identifying the cause and developing a final remedy. In the meantime, Kia has developed an initial remedy to mitigate fire risk. The purpose of this communication is to keep you informed of Kia's recall implementation plan. Kia will send you another notice when a final remedy is available.

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on certain 2020-2022 model year Telluride vehicles manufactured from January 9, 2019 to August 12, 2022 equipped with a Genuine Kia 4-pin tow hitch harness accessory supplied by Mobis Parts America.

A fire may occur in the area of the tow hitch harness module while driving or while the vehicle is parked with the ignition off. Foreign material and moisture contamination on the tow hitch harness module printed circuit board (PCB) may result in an electrical short circuit, thereby increasing the risk of a tow hitch harness module fire. The origin of PCB contamination is currently unknown but is under investigation. A fire increases the risk of injury.

Kia will notify certain 2020-2022MY Telluride owners regardless of whether their vehicle was equipped with 4-pin or 7-pin tow hitch harness as a port installed option (PIO) in effort to capture those vehicles that may have had a 4-pin trailer tow harness installed as a dealer installed option (DIO).

Kia dealers will install a new fuse with a different capacity, as an initial remedy, to mitigate fire risk. When the final remedy becomes available, Kia will send a follow-up notice to dealers and customers. The new fuse installation and the final remedy will be performed free of charge at no cost to the customer.

Kia dealers have been advised not to sell the 4-pin tow hitch harnesses and to return any unsold harnesses to Kia America.

The Technical Service Bulletin that provides vehicle inspection and repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com.

Enclosed you will find a copy of the interim owner notification letter and a Q&A Guide for recall questions, both of which describe the issue. Note that any vehicle owner who has already paid for related repairs can submit a request for reimbursement online via the Owner's Section of www.kia.com. Kia will mail interim notices to the affected vehicle owners beginning on **October 11, 2022**.

Also, please make certain the appropriate personnel in your dealership are familiar with the details of this recall to ensure proper responses to customer inquiries and requests to have the recall performed on their vehicles. This Safety Recall Campaign represents an opportunity for your service department to deliver an exceptional service experience (e.g., flexible service appointment process, car wash and vacuum and timely service).

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.

LEGAL PRIVACY LIABILITY NOTICE: Pursuant to the terms of the Dealer Sales and Service Agreement and the Gramm-Leach-Bliley federal consumer privacy act, you are required to keep confidential any and all information and documents provided to you by Kia America, Inc. or generated by you in the conduct of carrying out work under that Agreement regarding Kia vehicle purchasers and owners, including but not limited to warranty claim information. Kia dealers may use such owner information for the sole purpose of conducting and performing this safety recall campaign, and for no other purpose.

If you have any questions, please contact your Kia District Parts and Service Manager.

Sincerely,

Kia Service Department
