## Chronology :

- On July 19, 2022, the FCA US LLC ("FCA US") Technical Safety and Regulatory Compliance ("TSRC") organization opened an investigation into 2022 MY Jeep Gladiator vehicles based on information from the vehicle assembly plant regarding suspect transmissions.
- During July 2022, FCA US TSRC reviewed traceability records and met with FCA US manufacturing and determined certain Jeep Gladiator vehicles may have been released from the assembly plant with suspect transmissions.
- As of August 4, 2022, FCA US has identified zero customer assistance records, zero warranty claims, and zero field reports potentially related to this issue for all markets.
- As of August 4, 2022, FCA US is not aware of any accidents or injuries potentially related to this issue for all markets.
- On August 19, 2022, FCA US determined, through the Vehicle Regulations Committee, to conduct a voluntary safety recall of the affected vehicles.

## Description of Remedy :

Description of Remedy Program : FCA US will conduct a voluntary safety recall on all affected vehicles to replace the transmission.

FCA US has a longstanding policy and practice of reimbursing owners who have incurred the cost of repairing a problem that subsequently becomes the subject of a field action. To ensure consistency, FCA US, as part of the owner letter, will request that customers send the original receipt and/or other adequate proof of payment to the company for confirmation of the expense.

How Remedy Component Differs from Recalled Component : The remedy component is a transmission that has a correctly crimped parking wheel.
