		What is the safety concern for Safety Recall 66N8?	The trailer hitch bolts have may not have been sufficiently tightened. The bolts may begin to loosen which will lead to a rattling noise. If the problem persists, the loose bolt may fall out, or the remaining bolts may be over-stressed which could lead to separation of the trailer hitch during towing. This may increase the risk for a crash for the following traffic.												
		Are there any precautions I should take because my vehicle is part of Safety Recall 66N8?	Until this recall work has been completed, owners should not tow a trailer with their vehicle. If the condition is present in the vehicle, owners may notice a rattling noise from the rear of the vehicle. If this happens, owners are advised to contact an authorized Volkswagen dealer without delay to have the vehicle inspected/repaired.												
		What is the repair for the Safety Recall 66N8?	To address this potential issue, your authorized Volkswagen dealer will tighten the trailer hitch bolts an additional 90°.												
		When will the repair for Safety Recall 66N8 be available?	Repairs for this recall have begun. Please contact your authorized Volkswagen dealer without delay to schedule this recall repair. To set up an appointment online, please visit <a href="http://www.vw.com/find-a-dealer">www.vw.com/find-a-dealer</a> .
