VOLKSWAGEN/GTI/2022-2023

Mfr's Report Date: September 21, 2022

NHTSA Campaign Number: 22V-707

Components:

ENGINE AND ENGINE COOLING:COOLING SYSTEM:RADIATOR ASSEMBLY

Potential Number of Units Affected: 8,038

Problem Description:

Volkswagen Group of America, Inc. (Volkswagen) is recalling certain 2022-2023 Golf R A8 and Golf GTI vehicles. The radiator may not have been attached correctly to the intercooler, which can result in a damaged coolant hose.

Consequence:

A damaged coolant hose can leak, causing the engine to overheat, and increasing the risk of fire. In addition, large amounts of coolant spilling onto the roadway can increase the risk of a crash to other vehicles.

Remedy:

Dealers will inspect the radiator and replace any damaged parts, as necessary, free of charge. Owner notification letters are expected to be mailed November 18, 2022. Owners may contact Volkswagen's customer service at 1-800-893-5298. Volkswagen's number for this recall is 19Q8.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
