Subject: Compliance Recall 45J7 – Tire Pressure Monitoring System (TPMS) Software

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that certain 2019-2020 model year Audi vehicles fail to conform to Federal Motor Vehicle Safety Standard No. FMVSS No, 138 “Tire Pressure Monitoring Systems. Our records show that you are the owner of a vehicle affected by this action.

Audi of America, Inc.

What is the issue? In a test environment, in rare cases, the tire pressure monitoring system may not detect an air pressure loss in the time specified in the NHTSA FMVSS No, 138 “Tire Pressure Monitoring Systems” test procedure if it occurs simultaneously at the same rate in all four tires. A sudden loss of pressure in all four tires at the same time that goes undetected as required by regulations increases the risk of a crash.

What will we do? To correct this noncompliance, your authorized Audi dealer will update the TPMS software in your vehicle. This work will take about an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the “Find a Dealer” link to locate a dealer near you and schedule this service.
