**NHTSA:** 22V815

**Subject: Compliance Recall 45J6 – Tire Pressure Monitoring System (TPMS) Software**

Dear Volkswagen Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Volkswagen has decided that certain 2019-2021 model year Volkswagen vehicles fail to conform to Federal Motor Vehicle Safety Standard No. FMVSS No, 138 “Tire Pressure Monitoring Systems”. Our records show that you are the owner of a vehicle affected by this action.

**What is the issue?**

In a test environment, in rare cases, the tire pressure monitoring system may not detect an air pressure loss in the time specified in the NHTSA FMVSS No, 138 “Tire Pressure Monitoring Systems” test procedure if it occurs simultaneously at the same rate in all four tires. A sudden loss of pressure in all four tires at the same time that goes undetected as required by regulations increases the risk of a crash.

**What will we do?**

To correct this noncompliance, your authorized Volkswagen dealer will update the TPMS software in your vehicle. This work will take about an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

**What should you do?**

Please contact your authorized Volkswagen dealer without delay to schedule this recall work. To set up an appointment online, please visit [www.vw.com/find-a-dealer](http://www.vw.com/find-a-dealer).

**Lease vehicles and address changes**

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply card and mail it to us so we can update our records.
