## **New Safety Recall Advanced Communication – ZB3**

FCA US LLC (FCA US) has announced a safety recall on certain 2022 Model Year (LD) Dodge Charger and (WD) Dodge Durango vehicles equipped with Police Group AHB (LD) or AYF (WD).

### **REASON FOR THIS SAFETY RECALL**

Some 2022 MY Dodge Charger Pursuit vehicles and 2022 MY Dodge Durango Pursuit vehicles may have been built with shifter assemblies that have insufficient heat-treating on the shifter pawls.

Shifter pawls that are not properly heat-treated may bend during use, which may prevent the shifter from properly engaging the DRIVE position detent. A shifter that has improperly engaged the DRIVE position detent may slip out of the DRIVE position while driving, resulting in an unexpected loss of motive power which can cause a vehicle crash without prior warning.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to replace the shifter assembly. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 1st Quarter of 2023.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
