IMPORTANT SAFETY RECALL (Remedy Notice)

**Certain 2022 through 2023 Model Year Porsche 911 Vehicles
Porsche Recall ANB7 / NHTSA ID 22V-897**

Dear M. [REDACTED]:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect, which relates to motor vehicle safety, exists in certain 2022 to 2023 Model Year Porsche 911 Vehicles.

What is the issue?

On affected vehicles, the leather dashboard cover may not meet production specifications. In the event of a passenger airbag deployment, there is the possibility that the console of the dashboard may break and separate. This could impair proper front passenger air bag deployment, and increase the risk of an injury to the front passenger seat occupant.

What will Porsche do?

To help prevent this issue from occurring, Porsche is conducting a safety recall to replace the dashboard on affected vehicles, free of charge. This repair should take approximately 1 day to complete, however, it may be necessary to make your vehicle available to your dealer for a longer period of time. Your Porsche dealer will arrange for alternate transportation if necessary.

What if you are not the owner or operator of this vehicle?

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten days of receipt. If you have changed your address or sold the vehicle, please contact customer support so we can update our records.

What should you do?

The remedy needed to complete this recall is now available.

Please contact any authorized Porsche dealer to schedule an appointment to have this recall performed as soon as possible and to arrange for Porsche-provided alternate transportation, if necessary.
