Mfr's Report Date: December 22, 2022

NHTSA Campaign Number: 22V-949

Components:

EQUIPMENT:RECREATIONAL VEHICLE/TRAILER:LPG SYSTEMS

Potential Number of Units Affected: 1,540

Problem Description:

REV Recreation Group (REV) is recalling certain 2021-2023 Holiday Rambler Vacationer, Invicta, Navigator, Admiral, Fleetwood Southwind, Bounder, Pace Arrow, 2021-2022 Fleetwood Fortis, Flair, 2023 Fleetwood Flex and Holiday Rambler Eclipse motorhomes. The service valves on the LPG tanks may have improper thread depth, which can cause a propane leak.

Consequence:

A propane leak in the presence of an ignition source can increase the risk of a fire.

Remedy:

Dealers will inspect and if necessary replace the service valves, free of charge. Owner notification letters are expected to be mailed February 20, 2023. Owners may contact REV customer service at 1-800-509-3417.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.

Please ensure the following requirements are met:

A description of the manufacturer's program for remedying the defect or noncompliance (49 CFR 573.6 (c)(8)(i)).

AMENDED 573 REQUIRED.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

REV Recreation Group's contact for this recall will be Kristin Lepper who may be reached by email at kristin.lepper@dot.gov. We look forward to working with you.

Sincerely,
