

Part 573 Safety Recall Report

23E-064

Manufacturer Name : Streamline Industries Incorporated**Submission Date :** AUG 24, 2023**NHTSA Recall No. :** 23E-064**Manufacturer Recall No. :** NR**Manufacturer Information :****Population :****Manufacturer Name :** Streamline Industries Incorporated**Number of potentially involved :** 30,000**Address :** 9370 7th St**Estimated percentage with defect :** 100 %

Suite B Rancho Cucamonga CA 91730

Company phone : 1-909-310-5519**Equipment Information :****Brand / Trade 1 :** LA Chopper**Model :** Brake Hose Kit**Part No. :** See Descriptive Info**Size :** NR**Function :** Brake hose

Descriptive Information : Streamline manufactured the subject brake hoses as a contract manufacturer and the assemblies are sold under the brand name LA Chopper. Please see the attached list of part numbers for the subject assemblies.

Production Dates : MAY 01, 2018 - JAN 31, 2021**Description of Noncompliance :**

Description of the Noncompliance : Hydraulic brake hose assemblies may not comply with the performance requirements in FMVSS 106 S5.3.

FMVSS 1 : 106 - Brake hoses**FMVSS 2 :** NR

Description of the Safety Risk : For brake hose assemblies that do not comply with one of the performance requirements in FMVSS 106 S5.3, there is a risk that the brake hose could fail, increasing the risk of a crash.

Description of the Cause : Within the suspect manufacturing dates, Streamline equipped some portion of the suspect population with fittings with an anti-corrosion coating and a barb that may have contributed failures during NHTSA's conformance testing.

Identification of Any Warning that can Occur : N/A

Involved Components :

Component Name : Brake Hose Assembly

Component Description : Brake Hose Assembly

Component Part Number : See Attachment

Supplier Identification :

Component Manufacturer

Name : Streamline Industries Inc.

Address : NR

California

Country : United States

Chronology :

December 2021: NHTSA requested information from Streamline regarding results from the Agency's compliance testing. Streamline sent out current product to third-party testing facility (Element Materials Technology) for conformance testing.

Jan. – Mar 2022: Streamline responded to NHTSA information request and internally investigated records related to brake hoses manufactured for on-road use. Streamline reviewed and shared compliance testing results from Element for samples submitted in June 2020, December 2021, and February 2022.

Mar. 30, 2022: Streamline submitted a defect information report for brake hose assemblies intended for on-road manufactured between 1 May 2018 and 1 May 2020 because the assemblies may not have been marked in accordance with FMVSS 106 S5.2.2 (Recall No. 22E028).

Apr. 2022 – Aug 2023: Streamline continued investigating compliance testing for brake hose assemblies by acquiring brake assemblies manufactured from its distributor customer in order to test assemblies manufactured prior to June 2020. During its investigation Streamline determined that a population of brake hose assemblies had been equipped with fittings that used an anti-corrosion coating that may have impacted compliance.

17 Aug 2023: Streamline discussed its investigation of subpopulation with coating and discussed updating Recall No. 22E028 to include potential performance noncompliance in the recall related to labeling noncompliance. The Agency requested that Streamline submit a separate defect information report related to the performance issues. Based on NHTSA's request, Streamline agreed to submit a separate report for potential noncompliance with FMVSS 106 S5.3.

Description of Remedy :

Description of Remedy Program : Streamline will replace subject brake hose assemblies with brake hose assemblies manufactured after the suspect period.

How Remedy Component Differs from Recalled Component : The remedy component will not equip the replacement assemblies with the suspect fittings.

Identify How/When Recall Condition was Corrected in Production : Brake hose assemblies manufactured after 01/31/2021 did not use the suspect fittings.

Recall Schedule :

Description of Recall Schedule : Streamline sold the subject brake hose assemblies to its customer for resale. Streamline will notify its customer of the noncompliance and provide an owner notification letter that can be forwarded to its distributors and the consumer.

Planned Dealer Notification Date : SEP 20, 2023 - SEP 20, 2023

Planned Owner Notification Date : SEP 20, 2023 - SEP 20, 2023

Purchaser Information :

The following manufacturers purchased this defective/noncompliant equipment for possible use or installation in new motor vehicles or new items of motor vehicle equipment:

Name : Tolemar LLC

Address : 5221 Oceanus Drive
Huntington Beach CA 92649

Country : US

Company Phone : 7143628166

* NR - Not Reported
