Dear Ms. Blaesser:

This letter serves to acknowledge Chrysler (FCA US, LLC)'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

**Makes/Models/Model Years:**

JEEP/COMPASS/2022

**Mfr's Report Date:** February 9, 2023

**NHTSA Campaign Number:** 23V-058

**Components:**

ELECTRICAL SYSTEM: INSTRUMENT CLUSTER/PANEL

**Potential Number of Units Affected:** 90

**Problem Description:**

Chrysler (FCA US, LLC) is recalling certain 2022 Jeep Compass vehicles. The instrument panel center cluster display may be insufficiently illuminated and may not appear visible during daytime driving conditions. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 101, "Control and Displays."

**Consequence:**

An instrument panel display that is not visible to the driver may result in the inability to see safety-critical information, such as the fuel gauge and warning lights, increasing the risk of a crash.

**Remedy:**

Dealers will replace the windshield and headlamp switch, add a light sensor module, and add a wiring jumper harness to allow the instrument panel center cluster display backlighting to function correctly, free of charge. Owner notification letters are expected to be mailed March 31, 2023. Owners may contact FCA US, LLC customer service at 1-800-853-1403. FCA US, LLC's number for this recall is 15A.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.nhtsa.gov](http://www.nhtsa.gov).
