***** Campaign Summary *****

Nissan is committed to the safety and security of our customers and their passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is recalling the affected vehicles to address a potential issue with the driver airbag cover emblem.

The resin emblem on the driver's airbag module cover in affected vehicles may have reduced durability due to potential Tier 2 supplier production process variation. In this condition, over time the posts of the emblem may develop cracks, and the emblem and retainer components could detach in the event of an airbag deployment. A detached emblem and/or retainer component may become a projectile during an airbag deployment, increasing the risk of injury to vehicle occupants.

Dealers will inspect and, if necessary, replace the Driver Airbag Cover.

****** What Dealers Should Do******

1. Verify if vehicles are affected by this Voluntary Safety Recall Campaign using Service Comm or DBS National Service History Campaign I.D. **PC944, PC945, PC946.**
2. Dealers **must not wholesale, sell, lease, trade, rent or loan** any vehicles in dealer inventory affected by this recall campaign until after the vehicle has been inspected and, if necessary, repaired.
3. If a retailed vehicle affected by this Campaign ID visits the dealer for service, the dealer should inform the customer about the recall and communicate that the remedy and parts are available.
4. Once repaired, dealers should submit the claim using the claims coding provided, and release the vehicle.
