Subject: Compliance Recall 69ET - Passenger Frontal Airbag

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that certain 2022-2023 model year Audi vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 208, "Occupant Crash Protection". Our records show that you are the owner of a vehicle affected by this action.

What is the issue? The occupant protection flap of the airbag within the passenger airbag module may not have been folded as specified. Because of this, the vehicles included in this recall may not fully comply with the requirements of an out of position airbag test according to Federal Motor Vehicle Safety Standard No. 208, "Occupant Crash Protection".

The airbag in the affected vehicles is fully functional. However, if a child or small person was seated and unbelted on the front passenger seat and very close to the instrument panel, in a crash the force caused by the inflating airbag on the occupant could be higher than permitted, increasing the risk of injury.

What will we do? To correct this noncompliance, your authorized Audi dealer will replace the passenger frontal airbag module. This work will take about three hours to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.
