**SUBJECT: GSX1300RM2(Hayabusa) Front Brake Master Cylinder Body
Replacement Recall Campaign**

Dear Sirs and Madams,

This letter is to inform you of the "Front Brake Master Cylinder Replacement Recall Campaign" for GSX1300RRQM2(Hayabusa) produced from Mar. 26, 2021 to Jan. 11, 2022.

We were informed from fields that the front brake lever play is increased.
As the result of our investigation, we found that the fluid passage in the front brake master cylinder body may remain closed though the brake lever released due to improper setting of the passage for adjusting the brake fluid pressure.
This can lead the excessive brake lever play under certain condition, and in the worst case, the braking distance may increase.

In view of the nature of this problem, Suzuki Motor Corporation (SMC) has decided to carry out the Recall Campaign in your market. The details are explained in the following pages.

You are kindly requested to organize the Recall Campaign for the affected units in your market. If you are required to report to your authority, please contact them according to your law.

If you have affected units in your warehouse, you are required to remedy them before releasing to your dealers. You are also immediately required to instruct your dealers to remedy the affected unit in stock if any, before delivering them to the customers.
Please make sure that no customers will receive the affected units without appropriate Recall campaign remedy.

We apologize for any inconvenience this may cause to you. Your cooperation and assistance will be highly appreciated.
If you have any question, please don't hesitate to contact us anytime.

Very truly yours,

Shinji Ishikawa
Department General Manager
Overseas Service Department
Suzuki Motor Corporation

Action

- 1) For the affected units before retail sales, you are requested to remedy them before delivering them to the customers.
- 2) For the affected units after retail sales, contact the customers of the units to let them bring their vehicles to your authorized dealers.
- 3) Order the necessary quantity of parts.
- 4) Report to the authority according to your law.
- 5) Issue service bulletin to dealers and customer letter to owners.
- 6) Perform a corrective work following the repair instruction of ANNEX3.
- 7) Once the corrective work is done, destroy replaced parts at your responsibility to prevent reuse of the potentially failed parts.

Affected Models

Model: GSX1300RM2(Hayabusa)

Production Period: From Mar. 26, 2021 to Jan. 11, 2022

Affected VIN range and units quantity in your market: Please refer to attached VIN list of ANNEX2.
