## **IMPORTANT SAFETY RECALL**

### **Why did you get this email?**

Suzuki Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2022 model-year Hayabusa motorcycles. In certain conditions, a passage in the front brake master cylinder body that regulates fluid pressure may become blocked when the brake lever is released. If this occurs, the brake lever may require greater than normal travel in a subsequent application of the front brake.
