

# MACK TRUCKS RECALL ALERT

---

**Subject:** Safety Recall SC0442, Akasol Batteries  
**Recall Number:** SRA-M442  
**Date:** April 24, 2023  
**Applicable Markets:**  U.S.  Canada  Export

---

## **Description**

Coolant Lines in battery pack may not be properly assembled and could result in the loss of coolant and a short in a battery cell. With a short in the battery cell there is a risk of a battery fire and subsequent vehicle fire.

There have been no warranty claims, field reports, accidents or injuries reported with this issue.

Akasol will inspect all Generation 3 batteries produced by their Hazel Park, Michigan factory and installed on Mack vehicles. If any manufacturing discrepancies are identified the batteries will be removed and replaced.

## **Model and Model Years Affected**

- Certain 2023 Mack LR Electric vehicles manufactured November 25, 2022 through December 14, 2022.

### **Vehicle Quantities**

- 2 vehicles, all US.

## **Dealer Responsibilities**

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

## **Notification Release Schedule**

- Vehicle list will be posted on the Trucks Dealer Portal April 24, 2023.
- Owner notification letters will be released on or before June 16, 2023.
- Repair Instruction will be released once they are available.

## **Contact**

If you have questions or concerns about this recall, contact the Regulatory Affairs Department at [vtna.regulatoryaffairs@volvo.com](mailto:vtna.regulatoryaffairs@volvo.com).
