In-Vehicle/In-App Communication – Safety Recall Reminder

NHTSA ID: 23V-609

Subaru Recall ID: WRM23

Applicability: 2022 model year Subaru BRZ

Recall issue: Rear turn signals may become inoperable

Text:

Recall Description:	Subaru of America, Inc. (Subaru) has initiated a safety recall for certain 2022 model year BRZ vehicles. The affected vehicles may be equipped with rear combination lamp assemblies where the turn signal may become temporarily inoperable.
Safety Risk Description:	If the rear turn signal lamps become inoperable, other road users may not realize that the rear turn signal or the rear hazard lights have been activated, increasing the risk of a crash.
Remedy Description:	For all affected vehicles, Subaru retailers will replace both rear combination lamp assemblies with assemblies containing an improved circuit, at no cost to the customer.
