**NHTSA Campaign Number:** 23V-875

**Components:**

STRUCTURE:CRITICAL FASTENERS

**Potential Number of Units Affected:** 3,739

**Problem Description:**

Daimler Vans USA, LLC (DVUSA) is recalling certain 2019-2022 Mercedes-Benz Sprinter vehicles. The longitudinal frame members may be missing reinforcement fasteners, reducing vehicle stability and decreasing the structural integrity of the third-row seats.

**Consequence:**

Reduced stability increases the risk of a crash. Additionally, the third-row seat mountings can fail, increasing the risk of injury during a crash.

**Remedy:**

Dealers will inspect and repair the frame members as necessary, free of charge. Owner notification letters are expected to be mailed February 16, 2024. Owners may contact DVUSA customer service at 1-877-762-8267. DVUSA's number for this recall is VS3ROHRAH.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.nhtsa.gov](http://www.nhtsa.gov).

**Please ensure the following requirements are met:**

Please state the increased risk of a crash as a result of the impaired stability (49 CFR 573.6 (c)(5)).

**AMENDED 573 REQUIRED.**

Please be reminded of the following requirements:

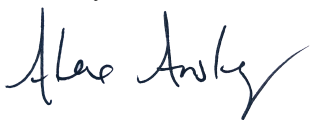

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.
