## **IMPORTANT SAFETY RECALL – Recall Number: 24V-028**

Affected Chassis: XXXXXXXXXXXXXXXXXXXXX

Dear Valued Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Weldon, a division of Akron Brass Company, has decided a safety related defect exists in certain V-MUX 8 x 16 I/O Nodes, Weldon Part Number 6030-2000-00.

### **What is the concern?**

In the affected products, short circuit protection may not function properly. In the case of a short circuit in the wiring or the connected load, overheating of the wiring or the connected device may occur, and depending on how the product is installed in the vehicle, this could increase the risk of a vehicle fire.

### **Corrective Action**

All of the affected nodes installed in your vehicle can be updated with on connection to the V-MUX network, without accessing the individual nodes. The design files and functionality are not affected. A Weldon service app and the downloader kit is utilized to make the firmware update. This update is estimated to take five minutes and can be completed when the vehicle is in PM without other changes.

Weldon will provide the update application to fleet owners and authorized service centers to install the firmware update along with instructions.

### **What should you do?**

Please contact Weldon Customer Service [fsg-rma@idexcorp.com](mailto:fsg-rma@idexcorp.com) and reference this recall number and provide your agency name and mailing address to obtain the remedy at no cost to you.
