

DEALER COMMUNICATION

 **IMPORTANT SAFETY RECALL NOTICE** 

Date: February 1, 2024

To: All Winnebago Towable Dealers

Subject: **NHTSA SAFETY RECALL # 24V-046 / TRANSPORT CANADA # 2024-049 / WINNEBAGO TOWABLE # CAM0000034**

Issue: Winnebago Towables has decided that a defect related to motor vehicle safety exists on certain 2024 Access models. These vehicles were manufactured October 12, 2023 through January 11, 2024.

On certain 2024 Access models the breakaway switch was incorrectly wired. An incorrectly wired breakaway switch will not engage the trailer brakes in the situation where the trailer becomes detached from the tow vehicle, which increases the risk of a crash in that condition.

Affected Vehicles:

MAKE	MODEL	MODEL YEARS
WINNEBAGO	Access	2024

Repair Information: The repair instructions have been completed and are attached.

Owner Notification: Winnebago Towables anticipates notifying owners mid-February.

Owner Precautions: Owners should be aware that the breakaway switch may not be working on their vehicle and take extra precaution to make sure their tow vehicle is properly connected to the trailer.

Dealer Responsibility Do not deliver any subject trailer until corrective action has been taken. All vehicles subject to this campaign are to be serviced at no charge to the owners regardless of mileage, age of vehicle, or ownership from this time forward.

Notes Please ensure all dealership personnel are aware of this notice so they are able to address customer questions. Contact Winnebago Towable Customer Care if you require additional assistance. Direct any press inquiries to Winnebago Public Relations.

Important Reminder: It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification until the noncompliance is remedied.
