2020–21	Pilot	ALL	Check the iN VIN status for eligibility.
2020–21	Ridgeline	ALL	Check the iN VIN status for eligibility.

### BACKGROUND

On February 1, 2024, American Honda notified NHTSA of a **STOP SALE** and **safety recall** for certain model year 2020-22 Accord and Accord Hybrid, 2020-21 Civic, 2020-22 Civic Si 2021 Civic Type R, 2020-21 CR-V and CR-V Hybrid, 2020 Fit, 2020-22 HR-V, 2021 Insight, 2020-22 Odyssey, 2020-21 Passport, Pilot, and Ridgeline vehicles that may have damage to the seat weight sensor in the front passenger seat. Damaged seat weight sensors may cause improper deployment of the front passenger airbag during a crash, increasing the risk of injury.

Affected vehicles may be equipped with seat weight sensors not built to proper specifications. Improperly built sensors could lead to cracking and/or a short circuit of the sensor resulting in the illumination of the SRS warning light and the passenger airbag indicator remaining OFF.

If this temporary placeholder bulletin appears during an iN VIN status inquiry, the vehicle is subject to a safety recall. Any affected vehicles in your dealer inventory are on **STOP SALE** until further notice. Refrain from calling Tech Line for updates.

The following suggested text should be included on any repair order for an already sold affected vehicle that comes in for service. This information should be printed out completely any time service is conducted on an affected vehicle, and the recall repair has not yet been completed. Once parts and repair information are available, the normal procedures under Service Operations Manual (SOM) 7.2.1 will apply for this recall.

**CUSTOMER INFORMATION:** The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by “do-it-yourselfers,” and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.

**Suggested verbiage to be included on the repair order:**

*Customer advised that:*

*The vehicle may be subject to a recall affecting the front passenger seat weight sensors. The parts necessary to complete the recall repair are not yet available. Once parts are available, the registered owner of the vehicle will receive a notice to bring the vehicle in for replacement of the components.*

Please be advised that customers will still be able to register their vehicles with their respective Department of Motor Vehicles at this time.

For any questions or concerns customers may have, you may have them contact American Honda's Customer Support & Campaign Center at **1-888-234-2138**.

**This bulletin will be updated once the parts information is available.**
