Dear General Motors Customer:

We have learned that your 2015 model year Buick Encore, LaCrosse, Regal, or Verano; Cadillac ATS, CTS, ELR, Escalade, SRX or XTS; Chevrolet Colorado, Corvette, Cruze, Equinox, Impala, Malibu, Silverado, Sonic, Spark, SS, Suburban, Tahoe, Trax, or Volt; or GMC Canyon, Sierra, Terrain, or Yukon vehicle may have a performance issue with the OnStar® module that could impact your vehicle's battery life. This condition can cause a dead battery if your vehicle is not started for approximately 4 days, and can occur even if you do not have an active OnStar® subscription.

Your satisfaction with your GM vehicle is very important to us, so we are announcing a program to prevent this condition or, if it has occurred, to fix it.

What We Will Do: Your GM dealer will replace the OnStar® module. If you do not have an active OnStar® subscription, your dealer will temporarily activate the OnStar® system and upon replacing the module, your dealer will deactivate the system. This module replacement will be performed for you at **no charge until November 30, 2017**. After that, any applicable warranty will apply.

What You Should Do: To limit any possible inconvenience, we recommend that you contact your GM dealer as soon as possible to schedule an appointment for this repair. To ensure that the necessary parts will be available on your scheduled appointment date, **PLEASE PROVIDE YOUR DEALER WITH THE INFORMATION BELOW WHEN YOU CALL TO MAKE THE APPOINTMENT.**
