

Service Update

46650 Transmission Fluid Level Low

Reference Number: N16-2046650
GWM Number: 2046650

Release Date: June 2016
Revision: 00

Attention: This service update includes vehicles in dealer inventory and customer vehicles that return to the dealership for any reason. This bulletin will expire at the end of the involved vehicle's New Vehicle Limited Warranty period.

Make	Model	Model Year		RPO	Description
		From	To		
Chevrolet	Trax	2016	2016	LUV F46 MNK	1.4L Engine All-Wheel Drive 6-Speed Automatic Transmission

Involved vehicles are marked "open" on the Investigate Vehicle History screen in GM Global Warranty Management system. This site should always be checked to confirm vehicle involvement prior to beginning any required inspections and/or repairs.

Condition	On certain 2016 model year Chevrolet Trax vehicles equipped with a 1.4L engine (RPO LUV), All-Wheel Drive (RPO F46) and a 6-speed automatic transmission (RPO MNK), the transmission fluid may be under filled by 350ml. (11.8 fl oz.).
Correction	Check the transmission fluid and fill to the proper level.

Service Update

46650 Transmission Fluid Level Low

Service Procedure

1. Open the hood and install fender covers.
2. Remove the fluid fill cap.
3. Fill the transmission to the proper level with the correct fluid. Refer to *Transmission Fluid Level and Condition Check* in SI.
4. Install the fluid fill cap.
5. Remove fender covers and close hood.

Dealer Responsibility

Whenever a vehicle subject to this service update enters your vehicle inventory, or is in your facility for service in the future, and the vehicle is still covered under the New Vehicle Limited Warranty, you must take the steps necessary to be sure the service update correction has been made before selling or releasing the vehicle.

All new, used, GM Certified Used, courtesy transportation vehicles, dealer shuttle vehicles, etc. in dealers' possession and subject to this bulletin must be held and inspected/repared per the service procedure of this bulletin before customers take possession of these vehicles. Involved vehicles must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration, or any other purpose.

All GM Certified Used vehicles currently in the dealers' inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified and must be held and remedied per the service procedure in this bulletin. Upon submitting an accepted/paid warranty transaction in the Global Warranty Management (GWM) system, the vehicle can be re-certified for sale within the CPOIS system, or once again be used in the CTP program.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the tools, equipment, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your dealer for information on whether your vehicle may benefit from the information.
