Service Campaign Bulletin

Service Campaign Bulletin

Service Campaign Bulletin

Campaign No. 2023120004, December 2023

TO: ALL MERCEDES-BENZ CENTERS

SUBJECT: Model GLC (254 platform)

Model Year 2023

Update Panoramic Sliding Sunroof Control Unit Software

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY 2023 GLC (254 platform) vehicles, the panoramic sliding sunroof control unit software does not correspond to the latest series production configuration. In rare cases, the sensitivity of the automatic reversing function may prompt an incorrect reversal of the sliding sunroof panel. An authorized Mercedes-Benz dealer will update the Panoramic Sliding Sunroof Control Unit software.

Prior to performing this Campaign:

- VMI must be checked before performing campaigns to verify that the campaign is required on a specific vehicle. Always check for any other open campaigns, and perform accordingly.
- Please review the entire Campaign bulletin and follow the repair procedure exactly as described.

Approximately 86 vehicles are affected.

Order No. P-SC-2023120004

Update Panoramic Sliding Sunroof Control Unit Software

<u>i</u>	 Always use the latest XENTRY Diagnosis software release with all available add-ons. Follow the operation steps exactly as described in XENTRY Diagnosis. Use a charger to ensure sufficient power supply to the vehicle's on-board electrical system battery (greater than 12.5 V). If XENTRY Diagnosis is already connected to the vehicle, start with Work Procedure Step 2. If two or more software updates or SCN codings are performed during a single workshop visit, operation items 02-4762 and 02-5058 may be invoiced only on one of the workshop orders.
<u>No</u>	rk Procedure
1.	Connect XENTRY Diagnosis.
2.	Perform initial control unit startup of A98 - "panoramic sliding sunroof" (PSD) control module . 1 To do this, select menu item "Quick test view A98 - 'Panoramic sliding sunroof' (PSD) control module → Adaptations → Initial control unit startup → Initial startup of the already installed control unit". 1 Then follow the user guidance in XENTRY Diagnosis. 1 The control unit <i>does not</i> have to be replaced.
3.	Disconnect XENTRY Diagnosis.

Warranty Information

Damage Code	Operation Number	Description	Labor Time (hrs.)
	02-9334	Update panoramic sliding sunroof control unit software (with XENTRY Diagnosis connected)	0.1
54 986 24	02-4762*	Connect/disconnect diagnostic system (XENTRY Diagnosis)	0.1
	02-5058*	Connect/disconnect starter battery charger (with XENTRY Diagnosis connected)	0.1

^{*} Invoice operation items only on one of the workshop orders, if two or more software updates or SCN codings are performed during a single workshop visit.

Note: The following allowable labor operation should be used when submitting a warranty claim for this repair:

Note: Always check Xentry Operation Time (XOT) for the current OP-Code times. Labor times are subject to change and updates may not be reflected in this document.
