***The problem is...*** The passenger airbag inflator housing in your vehicle may rupture, due to excessive internal pressure, during normal airbag deployment events. This condition is more likely to occur if your vehicle has been exposed to high levels of absolute humidity for extended periods of time. ***What your dealer will do...*** FCA will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace your passenger airbag inflator. The work will take up to 2 hours to complete. However, additional time may be necessary depending on service schedules.

***What you must do to ensure your safety...*** Simply contact your Chrysler, Jeep, Dodge or RAM dealer on or after **February 23, 2015** to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Please bring this letter with you to your dealer.**
