NHTSA RECALL 15V-795

Dear Nissan GT-R owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that certain Model Year 2015-2016 Nissan GT-R vehicles fail to conform to CFR 49 Part 567 "Certification." Our records indicate that you own or lease the Nissan vehicle identified by the VIN on the inside of this notice.

Reason for Recall

The Certification label located on the driver's side door pillar near the door latch of your vehicle does not contain the Gross Vehicle Weight Rating (GVWR) and Gross Axle Weight Rating (GAWR) information as required by the applicable regulation. Having the correct GVWR/GAWR information on the Certification label is important because overloading your vehicle may increase the likelihood of a crash.

What Nissan Will Do

Please bring your GT-R to a Certified Nissan GT-R dealer to have a VIN-specific replacement Certification label that contains the correct GVWR/GAWR information installed on your vehicle. This repair should take less than an hour and is free of charge for parts and labor.

What You Should Do

Contact your Certified Nissan GT-R dealer at your earliest convenience in order to arrange an appointment to have your Certification label replaced. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer.
