

IMPORTANT SAFETY RECALL INFORMATION

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

January, 2016

This notice applies to your vehicle **ZAM45VM** [REDACTED]

Dear Maserati Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Maserati S.p.A. and MNA have decided that a safety defect which relates to motor vehicle safety exists in the above described vehicles which were manufactured with a main fuel delivery line which was not galvanized treated. A non-galvanized treated main fuel delivery line will be susceptible to corrosion.

Through normal vehicle use and exposure to the elements, especially during the winter months where road-salt will be used for de-icing of the roadways, a non-galvanized main fuel delivery line will corrode and can leak fuel. If the leaked fuel comes into contact with an ignition source there is potential for a vehicle fire.

The remedy for the affected vehicles involves the replacement of the main fuel delivery line. The remedy procedure will take approximately 1 hour to be completed and will be performed free of charge to the vehicle owner.
