IMPORTANT SAFETY AND EMISSIONS RECALL

This Notice Applies to Your Suzuki Vehicle Identification Number (VIN)

JS1VP56AXE2XXXXXX

February 1, 2016

Dear Suzuki Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act, and Environmental Protection Agency (EPA) and California Air Resources Board (CARB) regulations.

Suzuki Motor Corporation has decided that a defect which relates to motor vehicle safety and emissions regulations exists in certain 2012-2014 DL650 motorcycles, 2013-2014 SFV650 motorcycles and 2013-2014 AN650 scooters.

IMPORTANT NOTICE FOR CALIFORNIA RESIDENTS

The California Air Resources Board requires that all applicable emission recall campaigns be completed prior to California registration renewal. If you do not have this recall campaign performed, you will not be able to renew your California vehicle registration.

After completing the recall service, your California Suzuki dealer will give you a "Proof of Correction" certificate. If required, present this certificate to the Department of Motor Vehicles when renewing your California registration.

What is the defect?

Contamination from component production and storage, combined with manufacturing variations, may result in excessive tappet and camshaft wear within the engines of the affected motorcycles and scooters. The excessive wear may result in engine stalling, increasing the risk of a crash. The excessive wear can also affect emissions performance, so this recall is being conducted as both a Safety Recall Campaign and an Emissions Recall Campaign.

What is Suzuki Motor of America, Inc., doing to correct the defect?

For motorcycles and scooters with 2,500 miles or more on the odometer, Suzuki dealers will inspect the valve clearances, and replace the tappets and camshafts, as necessary. All motorcycles and scooters with less than 2,500 miles on the odometer will have the tappets and camshafts replaced, since wear may not be evident. This procedure will take approximately 1 day to complete. Parts are available now, and there will be no charge to you for any recall service-related parts or labor.

What you should do:

Make sure you are prepared for the recall service by taking the following steps:

- Before taking your vehicle to your dealer, contact them as soon as possible to make an appointment for the recall service. Be prepared to provide them with the VIN of your vehicle (provided at the top of this notice).
- Please take this notice to your dealer to help your dealer process your claim.
