NHTSA Recall 16V-344

**IMPORTANT SAFETY RECALL**

This notice applies to your vehicle: 9999999999999999

Dear JOHN Q SAMPLE:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

**WHAT IS THE REASON FOR THIS NOTICE?**

Honda has decided that a defect which relates to motor vehicle safety exists in certain 2007-2008 model year Fit vehicles. The propellant wafers in some of the subject inflators may degrade over time, which could lead to over-aggressive combustion in the event the airbag is activated. Overly aggressive combustion creates excessive internal pressure when the inflator is activated, which may cause the inflator body to rupture. In the event of an inflator rupture, metal fragments could pass through the airbag cushion material possibly causing injury to vehicle occupant.

**WHAT WILL HONDA DO?**

The remedy parts needed to conduct passenger frontal airbag inflator recalls will become available in late Summer/Fall of 2016. Honda will send you another letter when parts become available to repair your vehicle.

**WHAT SHOULD YOU DO?**

**Honda suggests that you avoid having a passenger sit in the front passenger's seat until the recall repair has been performed.**
