MASERATI SAFETY RECALL

VEHICLE SAFETY RECALL INFORMATION & DESCRIPTION

PERFORM THE PROCEDURE OUTLINED IN THIS TECHNICAL BULLETIN ON ALL AFFECTED VEHICLES **BEFORE CUSTOMER DELIVERY** OR THE NEXT TIME THE CAR IS IN THE SHOP FOR MAINTENANCE OR REPAIRS.

Maserati dealers must ensure recalls are completed after having been notified by Maserati North America, Inc. (MNA) that a safety-related defect or noncompliance exists in any motor vehicle or item of replacement equipment in the dealer's possession at the time of notification. In MNA's case, this notification would typically be made by the issuance of a recall notification in the form of a Technical Bulletin.

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended (or in the case of Canadian vehicles, Motor Vehicle Safety Act S.C. 1993, as amended), if a recall campaign is announced by MNA, dealers must ensure that all recalls on new vehicles and new items of replacement equipment are completed BEFORE delivery to the consumer. This means that dealers may not legally deliver new motor vehicles or new items of replacement equipment to consumers with an open recall.

The Safety Act also prohibits dealers from selling or leasing the motor vehicle or item of replacement equipment, unless and until the open recall has been completed BEFORE delivery. This also pertains to vehicles in the Certified Pre-Owned program, and to items of replacement equipment.

Finally, MNA dealers should not sell or use parts that have been recalled by MNA. Please follow the specific instructions provided by MNA on the return or disposition of the parts.

Maserati S.p.A. and MNA have determined that the above described vehicles were manufactured with passenger side door latch components which were not heat-treated. Door latch components require heat-treatment processes to be applied to ensure all transversal door latch loads can be withstood, ensure vehicle strength integrity, and ensure door latch durability. If the vehicle's passenger side door is subjected to loads that are found during a vehicle crash, non-heat-treated door latch components can fail, which can lead to the door accidentally opening, thereby placing the passenger at greater risk of injury.

In an overabundance of caution, Maserati is recalling the above described vehicles to replace the passenger side door latch assembly. The repair procedure consists of the installation of new door latch components. The repair procedure will be performed free of charge to the customer.
