2020 Transit, F-Super Duty, F-53 Motorhome/F-59 Commercial, 2021 F-650/F-750/E-series Being Upfitted - Lane Keeping Or Departure System Calibration Not Calibrated

2020 Transit, F-Super Duty, F-53 Motorhome/F-59 Commercial, 2021 F-650/F-750/E-series incomplete, chassis Cab, cutaway and stripped chassis vehicles equipped with a lane keeping or departure system are not calibrated from the factory to support final modifications. The final stage manufacturer is responsible for verifying that the lane keeping or departure system camera sensor is properly calibrated within Ford specifications once vehicles are completed. Calibrating the lane keeping or departure system utilizes the Ford FDRS scan tool to calibrate the front view camera. Refer to Workshop Manual (WSM) section 419-07. Do not submit a claim for this condition.
