

**SSM 49918 - 2016-2018 Focus, 2018-2019 EcoSport - 1.0L EcoBoost - 6F15
- Loss Of Engine Oil Pressure - Built On Or Before 3-Jul-2019**

Some 2016-2018 Focus and 2018-2019 EcoSport vehicles equipped with a 1.0L EcoBoost engine, 6F15 automatic transmission and built on or before 3-Jul-2019 may exhibit an illuminated oil pressure warning lamp with a loss of engine oil pressure. This may be due to a failed engine oil pump belt tensioner. If engine oil pressure at idle is below 10 psi (refer to Section 303-00 in the Workshop Manual for the oil pressure test procedure) and/or metal contamination is present in the engine oil, replace the engine assembly with a long block option 6006 and the turbocharger.
