

2021 F-150
(IPC)
4.3.2

Smart changes here and there

A minor change so your vehicle can easily install the more intricate updates coming in the future.

Ford Power-Up delivers software updates that are designed to make your Ford F-150® truck better over time.

2021 F-150
(ADAS/DSMC/MRR/PSCM)
4.3.4

The functionality of your Rear View Camera has been improved.

Some camera views are now available while your vehicle is in motion. To monitor your cargo area or trailer, simply press your camera button and use the center high-mounted stop lamp camera (if equipped) or Rear View Camera, or watch the view from a trailer auxiliary camera (bought and installed separately).

Pro Trailer Backup Assist™ Refinements

First, if your F-150® has the Pro Trailer Backup Assist™ feature, you can now choose either the checkered target sticker or the yaw rate sensor to detect trailer angle. Second, we began modifying your system so that it can receive even more robust updates in the future. That step will require an additional download, and because of its complexity, that update will take longer.

Note: You may have already received this update but this version has been fine-tuned.

2021 F-150
(ECG)
4.3.5

Minor updates here and there

Some minor fine-tuning so your vehicle can easily install the more detailed updates coming down the road.

Ford Power-Up delivers software updates that are designed to help make your Ford F-150® truck better over time.

2021-2022 F-150
(SYNC)
4.3.6

We think you're going to like this.

The functionality of your rearview camera has been improved.

We've added a Picture-in-Picture (PIP) capability to the Trailer Reverse Guidance feature, so you can simultaneously monitor two camera views. This split view allows you to view Trailer Reverse Guidance Cameras and your choice of either the Center High-Mounted Stop Lamp (CHMSL) camera view, or the trailer auxiliary camera (bought and installed separately) at the same time to ensure the best visibility while backing your trailer into the tightest of spots.

For more information on these features, visit [Ford.com/support](https://ford.com/support) or your digital Owner's Manual.
