Some 2016 and 2017 Edge/MKX vehicles equipped with lane keeping system, adaptive steering, and built on or before 01-Feb-2017 may exhibit an inoperative lane keeping system. If the vehicle exhibits this concern, reprogram the SECM to the latest software level using Integrated Diagnostic System (IDS) release 104.04 or higher. Make sure you are connected to the internet when downloading as-built data. For claiming, use causal part 3504 and applicable labor operations in Section 3 or 10 of the Service Labor Time Standards (SLTS) Manual.
