

Current EWD Column to Be Switched Off

AFFECTED VEHICLES

General Information

After a year of transitioning from EWDs to Next Generation EWDs, we're switching off the **Current EWD** column on **March 1, 2015**. After that, Next Generation EWDs will be the only available version of electrical schematics.

2015 Accord

Next Generation EWDs offer many proven benefits over current EWDs and, with such recent additions as the **Search** feature and **Ground Distribution** schematics, they're an even more effective tool. Next Generation EWDs also tie in with the future rollout of an iN supporting multiple browsers such as Google Chrome, Mozilla Firefox, and Apple Safari. All of these changes give you more choices when servicing Honda vehicles.
