STATE I/M PROGRAM ADVISORY BULLETIN

APPLICABILITY: 2010 Legacy 2.5GT 6MT

NUMBER: 11-165-16

SUBJECT: VECI Label Reference During State Emission Test

DATE: 07/29/16

THIS BULLETIN IS FOR ADVISORY INFORMATION

Background

Federal vehicle labeling requirements are specified in 40 CFR §86.1807-01. In addition, California vehicle labeling must conform to the requirements in §1965, Title 13, CCR and the “California Exhaust Emission Standards and Test Procedures for 2001 and Subsequent Model Passenger Cars and Light-Duty Trucks, and Medium-Duty Vehicles” (last amended September 27, 2010).

Introduction

The California Smog Check program, as well as other State Inspection & Maintenance vehicle emission inspection programs, use the underhood Vehicle Emission Control Information (VECI) label as an integral part of their visual emission inspection procedures.

Subaru of America, Inc. has determined that there is a typographical error on the underhood VECI label for Subaru Legacy 2.5GT 6MT models with turbo engine. The incorrect label identifies the vehicle being equipped with secondary “AIR” as indicated below. **The vehicles were correctly built without secondary AIR.** The typographical error has no impact on emission performance or drivability. The remainder of the 2010 model year Subaru VECI label is correct.

FUJI HEAVY INDUSTRIES LTD. JAPAN SUBARU VEHICLE EMISSION CONTROL INFORMATION	
Conforms to regulations:	
2010MY	
U.S. EPA U.S. EPA : T2B5 LDV/LDT1/LDT2 OBD : CA II Fuel : Gasoline	
California California : LEV II PC/LDT1/LDT2 OBD : CA II Fuel : Gasoline	
Group : AFJXJ02.5PHL (2.5L)	8P
Evap : AFJXR01443DT	
TWC/HAFS/HO2S/TC/CAC/ <u>AIR</u> /SFI	
No adjustments needed.	

“AIR” to be deleted

CAUTION: VEHICLE SERVICING PERFORMED BY UNTRAINED PERSONS COULD RESULT IN SERIOUS INJURY TO THOSE PERSONS OR TO OTHERS.

Subaru Service Bulletins are intended for use by professional technicians ONLY. They are written to inform those technicians of conditions that may occur in some vehicles, or to provide information that could assist in the proper servicing of the vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do the job correctly and safely. If a condition is described, DO NOT assume that this Service Bulletin applies to your vehicle, or that your vehicle will have that condition.

SUBARU OF AMERICA, INC. IS ISO 14001 COMPLIANT

ISO 14001 is the international standard for excellence in Environmental Management Systems. Please recycle or dispose of automotive products in a manner that is friendly to our environment and in accordance with all local, state and federal laws and regulations.
