Subject

New maintenance plan for Gallardo MY05 and fluids

Model

All Gallardo with MY05 and later

Information to the field

With the presentation of the new MY05 we changed the maintenance plan for the car. Attached you can find the new maintenance plan Gallardo MY05.

Please remember that the maintenance plan has a time and a mileage division. If the car does not reach the mileage please make sure to respect the time frame

It means that all 1 year old cars Gallardo MY04 have now to make the following operations:

No	Operation	Action
1	Battery: connections and charge.	I
2	Braking system, pipes, calipers and connections. Check warning lights efficiency on the dashboard.	I
3	Brake and clutch fluid (change every year).	R

4	Clutch wear check.	I - R ***
5	Brake discs and pads	I
6	Coolant check.	I
7	Air conditioning system dust filters (at least every two years).	R
8	Front and rear suspension joints and relative fixing	I
9	Engine oil and filter (minimum once per year).	R
10	Gearbox front differential oil.	I
11	Shift control support adjustment inspection.	I
12	Wheel general appearance inspection	I
13	Check of proper working conditions and tightening of seats and safety belts.	I
14	Headlights aiming check.	I
15	Frame integrity and protection areas visual chec	I
16	When the work has been carried out, check tire pressure and condition and that the wheels are correctly tightened. Verify that the electrical system is functioning properly and then road-test the car.	I

I: inspection and any additional service if required

R: replacement

R* :** replace clutch if disc wear detected with the diagnostic instrument is higher than 5.6 mm

Parts

Make sure that you have all approved fluids for the maintenance. We up dated the fluids schedule to give a better availability in all countries.

Your Area Manager is at your full disposal for further clearing.

Best regards
