## **Subject**

Spare parts ECU re-flash

## **Model / VIN-Range**

Gallardo models from MY 04 on and Murciélago models from MY 02 on.

## **Information to the field**

Starting from 28.09.05, GFA, LIE and E-Gear spare parts ECU for Gallardo and Murciélago models MY 04-05 will be supplied by Lamborghini Spare Parts Department equipped with a standard software.

All these ECU need to be reflashed with the suitable software for the specific model, version and equipment of the car.

After assembling the new ECU on the car and before running the engine, you must contact Lamborghini Customer Service Department (Europe and RoW)/Lamborghini Technical Service (USA only) in order to receive the instructions and the PRG files you need for the ECU reflash.

**Important:** Lamborghini Customer Service and Lamborghini Technical Service will always need the complete VIN number of the car, the LDAS32 acquisition and the LaRA snapshot acquisition (only for E-Gear ECU), in order to provide you the correct PRG files and reflash instructions.

On all the ECU you will find a sticker containing Lamborghini Customer Service contacts (see sticker preview below).

In case of spare ECU in your stock, you can ask for the re-flash software to Lamborghini Customer Service Department (Europe and RoW)/Lamborghini Technical Service (USA only).

Your Area Manager is at your full disposal for further informations.

Best regards

Product Service
