

The upper screen displays audio, navigation, phone information, and more. Use the interface dial to control and operate this screen.

The On-Demand Multi-Use Display (ODMD) is the center touchscreen that displays audio, phone, and climate control information.

Press the Talk button to say voice commands. Listen to a system prompt if desired, followed by a beep before saying a command.

When you want to say a voice command, the system explains that you can interrupt the voice prompt by simply pressing the Talk button again.

In a continuing effort to enhance vehicle features, Acura has recently introduced a software update for the MDX.

Take a look through this brochure to familiarize yourself with some of the improvements.

You can also view helpful videos demonstrating some of the new functionality at www.youtube.com/user/Acura under the ODMD playlist.
