To: Subject: Date: Pages Official After Sales Network Engine Software Update March, 25 2016 15

Campaign code. <u>L614-A.01.16</u>

Campaign title. SW Update

Model. Gallardo Coupè

Model year. From 2011 to 2013

Special or Limited Versions. <u>All.</u>

Markets. All.

VIN identification

From BLA10073 to DLA12536

<u>Warning</u>: some vehicles included in this VIN range may not be involved, so check carefully on the Lamborghini WEB Portal (at the section named VIN Info) if the cars in your workshop or in your dealer stock are involved before performing any other operation.

Information to the field

As a result of continuous product monitoring, Automobili Lamborghini Spa has revised the diagnostic function of the engine control unit to allow an improved diagnosis of certain components.

Field solution

The instruction herein detailed describes two operations:

- operation B, which concerns software update;
- operation C, replacement of fuel pumps only when error code **P310A** is present after the update.

Spare parts.

Order the following part number which are connected to the operation required:

- Operazione B – Software update

P/N	Description	Q
n/n	n/n	0

- Operazione C – Fuel pump replacemet

P/N.	Description	Q
400198037	Fuel Pump Kit:	1
	 Intake manifold seals (Q.10); Drive by wire seals (Q.2); Clamp (Q.2); HP Fuel pump (Q.2); Screws (Q.4); Union (Q.4); Fuel filter (Q.1); Fuel filter protective hose (Q.1) Fuel line clamp (Q.6) Fuel line from intake manifold to sensor support (Q.1); Intake manifold union (Q.1); Sensor support (Q.1); Fuel line from LH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); Fuel line from RH bank sensor support to HP pump (Q.1); 	
420201215J	Pipe from filter to engine.	1
420201220B	Pipe from tank to filter	1

Replaced parts management.

Store properly and tagged the parts replaced with bar code form for their identification during Area Manager visits.

Labour time

- SW update : 1 hour.
- Replacement of high pressure fuel pump: **12,5** hours.

Warranty Claim instructions

To claim the reimbursement log into the warranty system management on the Lamborghini Portal and consults the manual "W.Claim " available on the portal for the download .

Select the desired campaign and go on with the claim insertion, read carefully the windows message content and choose the option button corresponding to the operation performed.

To: Subject: L614-A.01.16 Date: Pages

Official After Sales Network Engine Software Update March, 25 2016 15

On the base of the chosen option the reimbursement will be:

- OPTION B, software update; manpower: 1 hours spare parts: none,
- OPTION C: High pressure fuel pump replacement.

manpower: 12,5 hours; spare parts: 400198037, 420201215J, 420201220B.

ATTENTION!

Attach all documents produced during the vehicle visit that show evidence of the work performed such as repair order, software protocols or acquisitions...etc.; the lack of one or more of those, may deny the reimbursement.

Remember to fill all data in the section "Service and Recall Campaign" in the Warranty booklet of the vehicle as shown below.

Automobili Lam Campagne service assistenza e campagne di richiamo / Se	borghini S.p.A.

Necessary tools/material.	
P/N Descript	tion Q
-	

Preliminary operations:

- 1. Please be sure to have installed the LaRA-AS_7.0.0.192_VS_5.0 as described in the information bulletin BI.16.13 and LaRA License Renewal described in the information bulletin BI.06.15.
- 2. Help documentation: Gallardo MY11, MY12 and MY13 repair manual at chapter 10.90.

WARNING!

The update procedure for the Engine ECU's (Master and Slave) lasts more than 40 minutes, hence it is necessary to plug the diagnostic laptop into an electrical socket and to deactivate screen savers and all the energy saving options in order to avoid any interruption of the procedure.

Update procedure

- 3. Connect the vehicle to the battery charger in order to maintain a constant voltage supply during programming.
- 4. Connect the diagnostic laptop to the vehicle using the Basic XS interface (p/n 66095011) with the black cable (p/n 69190206).
- 5. Turn the ignition key ON; start the LaRA software and select the "Gallardo Coupè LP570-LP560-LP550 (MY09-14)" or "Gallardo Spider LP560-LP570 (MY09-14)". Then select "Automatic mode".

EU= Europe

US=United States of America. CH=China.

ROW= Rest Of the World. 4WD= Gallardo Coupè or Spyder four Wheel Drive .

4WD SL= Gallardo Super Leggera / Gallardo Performante.

2WD= Gallardo Coupè or Spyder two Wheel Drive.

Road test

- 38. Road test the vehicle for approx.20 minutes under the following conditions:
 - further work is necessary; •
 - out of town (if possible);
 - acceleration phases with high engine load;
 - overrun phases;
 - engine speed 2000...3000 rpm;

If the engine management warning amp (EPC) does not light up, no further work is necessary ..

Rev.02

ATTENTION!

If the engine management warning lamp (EPC) lights up and the entry "P310A - Fuel low pressure regulation, fuel pressure fluctuating" appears in the event memory, the high-pressure pumps must be replaced so go on with the procedure.

Replacement of High pressure fuel pump.

Operations to be performed with the following condtions:

- cold engine; •
- absence of open flame or electronic devices.

It is recommended to keep a fire extinguisher close at hand.

Preliminary dismantling.

39. Open the trunk and remove the Battery inspection lid.

Disconnect the battery terminal clamp from the negative post.

ATTENTION!.

Secure the clamp once it has been in order to prevent it from accidentally touching the battery post.

40. Take apart the intake manifold following the instructions detailed in the workshop manual posted on the Dealer Portal.

Manual index : Air intake Manifold – 03 Disassembly

Assembly of fuel filter and low pressure lines:

43. Install Low pressure lines together with the new fuel filter and the protection tube (B).

Fasten the clamp (A). to secure the filter

Connect the low press. lines and check the terminals are correctly inserted (C).

- Assembly of fuel feeding lines and high pressure pumps.
- 44. Connect the new high pressure pump (A) to the supplied union (B,C).

Screw the new union to the pumps without tightening.

Remark:

<u>Always Replace the union after every disassembly</u>. Use <u>always new components</u>. The Reemployment of used parts may cause damages to the vehicles.

45. Soak with engine oil the seal ring (A) before installing the pump.

46. Install the pump and fasten them with the supplied screws (B). Alternate to each fasteners 2 turns of screws making the pumps perfectly adhere to their lodge.

Check the pumps are correctly installed on their own lodges, then tighten the fasteners.

Screw tightening. Torque: **22Nm.**

47. Torque the unions (C,D) you have previously installed on the pumps.

Union (C,D) tightening. Torque: **35Nm.**

Remark:

Perform the tighening before fitting the steel tubes.

48. Assemble the feed and high pressure lines made of steel. Tighten the nut (G,E) to the pumps (H,F).

Junction tightening (H,F). Torque : **25Nm.**

49. Fasten the feed and high pressure lines made of steel to the engine with the fasteners (L,B) removed during the preliminary dismantling operation.

Line tightening (L;B). Torque: $7Nm + 90^{\circ}$

50. Install the mounting (B) of the fuel pressure sensor then fit the new sensor (A). Fasten the fuel lines with the supplied clamps (C).

Remark:

Replace clamps at every disassembly.

Tightening of sensor and mounting fasteners Fuel sensor torque (A):**15Nm;** fastener torque (B): **9Nm.**

Files of type: SGO Data container (*.sgo)			Cancel

VARNING.

For China market vehicles select "EU_&_USA".

59. Select the correct SGO file with the following table:

	4WD	4WD SL	2WD
EU USA	400907552 <mark>R</mark> ;	400907552 <mark>T</mark> ;	400907552 <mark>S</mark> ;
CH	version: 0040	version: 0040	version :0040
ROW	400907552 <mark>C</mark>	400907552 <mark>G</mark>	400907552 <mark>E</mark>
	version: 0040	version: 0040	version: 0040

EU= Europe.
US=United States of America.
CH=China.
ROW= Rest Of the World.
4WD E Gallardo Coupè or Spyder four Wheel Drive .
4WD SL= Gallardo Super Leggera / Gallardo Perfomante.
2WD= Gallardo Coupè or Spyder two Wheel Drive.

 Files of type:
 SGO Data container ("sgo)

 Cancel

60. At this point the SGO file is correctly selected and it is possible to proceed with the installation following step Errore. L'origine riferimento non è stata trovata. and Errore. L'origine riferimento non è stata trovata. of this bulletin.

(e.g. the correct software for a MY11 "Superleggera", for European market is 400907552T, version: 0040)
