iPod Interface software update

**Model**

All Gallardo Coupe and Spyder Model year 2008 and 2009, equipped with the Lamborghini original iPod kit, from VIN 8LA06159 to 9LA08929

**Warning:** some vehicles included in this VIN range may not be affected, so check carefully on the Lamborghini WEB Portal ( at the section named VIN Info) if the cars in your workshop or in your eventual stock are effectively affected before performing any other operation.

**Information to the field**

As a continuous product monitoring, Automobili Lamborghini Spa has found that in rare cases the iPod interface would keep the electronic system active when the ignition key removed; this may cause the complete battery draining when the car is unused long.

**Field solution**

Follow the herein reported instruction to update the iPod interface
