Bulletin No.: PI1466

Date: Apr-2015

Service Bulletin

PRELIMINARY INFORMATION

Subject: Squeak and/or Groan Noise from Brake Pedal Area Upon Brake Application

Models: 2013-2014 Buick Enclave

2013-2014 Chevrolet Traverse

2013-2014 GMC Acadia

Built Prior to January 1, 2014

Attention: This PI also applies to any of the above models that may be Export vehicles.

Condition/Concern

Some customers may comment on a squeak and/or groan noise from the brake pedal area upon brake pedal application.

The noise may be more predominant when outside ambient temperatures are warmer and/or after repeated use of the brake pedal.

Important: This condition does not affect the brake pedal performance or function.

This may be caused by the valve assembly in the brake booster being misaligned, causing the grease on the internal mating seal to be wiped away over time and creating a noise.

Recommendation/Instructions

If you experience a vehicle with the above condition, replace the power vacuum brake booster. Refer to Power Vacuum Brake Booster Replacement in SI.

Parts Information

Part Number	Description
25879631	BOOSTER ASM-P/B

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
2441580	Power Vacuum Brake Booster Replacement	Use Published Labor Operation Time

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
