

FORD:

2015-2017 Edge

ISSUE

Some 2015-2017 Edge vehicles may exhibit dirt and/or dust accumulation at the bottom of the front and/or rear door openings. This may be due to extended driving on non-paved roads.

ACTION

Follow the Service Procedure steps to correct the condition.

SERVICE PROCEDURE

1. Raise the vehicle. Refer to Workshop Manual (WSM), Section 100-02.
2. Remove and discard the attachment lower retainers from the left and right side rocker panel moulding end caps located behind the front tires. (Figure 1)

Figure 1 - Article 17-0056

3. Install the mini mud flaps under the rocker panel moulding end caps using a new attachment lower retainer. (Figure 2)

Figure 2 - Article 17-0056

4. Lower the vehicle.

NOTE: The information contained in Technical Service Bulletins is intended for use by trained, professional technicians with the knowledge, tools, and equipment to do the job properly and safely. It informs these technicians of conditions that may occur on some vehicles, or provides information that could assist in proper vehicle service. The procedures should not be performed by "do-it-yourselfers". Do not assume that a condition described affects your car or truck. Contact a Ford, Lincoln, or Mercury dealership to determine whether the bulletin applies to your vehicle. Warranty Policy and Extended Service Plan documentation determine Warranty and/or Extended Service Plan coverage unless stated otherwise in the TSB article. The information in this Technical Service Bulletin (TSB) was current at the time of printing. Ford Motor Company reserves the right to supersede this information with updates. The most recent information is available through Ford Motor Company's on-line technical resources.

5. On both rear doors, using a non-marring trim removal tool, remove the seven (7) push pins securing the rear door opening weatherstrip.
6. Pull both rear door opening weatherstrips away from the flange and discard.
7. Install new weatherstrips by starting from the top and pushing the seven (7) push pins into the door opening frame.
8. Slide the bottom half of the weatherstrips onto the flange.
9. Tuck the bottom of the weatherstrips inside the rocker cladding.
