Labor Operation	Description	Labor Time
2810765	Side Object Sensor Reprogramming with SPS	Use Published Labor Operation Time

Version	2
Modified	Nov. 7, 2016 – Updated Subject, Model and RPO Option sections. Combined 16-NA-191 with this bulletin.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
