

Preliminary Information

PIC6421 Hood Latch Replacement Tip

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Chevrolet	Camaro	2016 - 2018	All	All	All	All

Involved Region or Country	North America
Additional Options (RPO)	
Condition	When replacing the hood latch on one of the vehicles listed above, the service replacement part # 84678990 will also require the use of connector # 19368220. This new service latch has a three-wire connector while the original latch part # 84053842 on model years 2016-2018 will only have a two-wire connector.
Cause	Standardization of parts to service all 2016-2020 vehicles.

Correction:

Obtain connector part # 19368220 as per EPC

Remove the yellow wire and terminal from the new connector part # 19368220. It is also acceptable to cut the wire 1-2" from the connector and tape the end of it off.

The schematic in SI shows a purple wire on the latch- on the new connector this is a red wire. Connect the red wire on the connector to the BN/GN wire in the vehicle harness.

Connect the black wire on the connector to the black wire on the vehicle harness.

Additional SI Keywords

hood, circuit, circuits, connector, latch, three, terminal, terminals, two, wire, wires,
