

2022 MY F-150 Lightning  
(TCU)  
3.5.4

Get ready for some powerful convenience.

(Note that you may have already received an earlier version of these updates but this release is an enhancement.)

**Advanced Dual Phone**

Access two phones at the same time without having to mess with the settings. You could, for example, easily access both phones for incoming calls, contacts, text messages, emails and more.

**Payload Limit Warning**

We fine-tuned the Onboard Scales function so that you'll receive a notification if your payload capacity has been reached even if other feature menus are occupying the screen. Digital

**Owner's Manual**

We made sure what you need to know is in there and easy to find. Go see it at [Ford.com/support](https://ford.com/support), in-vehicle or in the FordPass® App.

Ongoing updates like this help you enjoy the best possible version of your truck.

2022 MY F-150 Lightning  
(IPC)  
3.5.6

**Frunk Chimes**

This latest Ford Power-Up software update may seem like a small one, but there's sound engineering behind it.

We've increased the volume of the frunk ajar chime to let you know when the frunk is not completely closed. Not only will the chime be louder, but this update will also mute the radio to notify you that you should safely stop your vehicle as soon as possible and fully close your frunk.

Ongoing updates like this help you enjoy the best possible version of your F-150® Lightning™ truck.
