

2021-2022MY Bronco
(BCM)
22-PU0925-HAZ-FLH

Software Updates Have Been Made.

A few small adjustments were made to restore your trailer light check feature to include the vehicle license plate lamps when the Trailer Light Check is operating. There is nothing you need to do.

Ford Power-Up software updates like this help us make improvements without the inconvenience of asking you to leave home. At Ford we value your satisfaction, and we respect your time.
