

2023 MY Bronco
(ECG)
4.2.1

Smart Changes Here and There

We've made improvements to our Software Update process, including the ability to enter your vehicle using your key fob during a non-drivable update.

You'll also now receive new pop-up alerts to inform you when certain criteria are not being met so that you can take the required action to receive your update. For a non-drivable update, criteria may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are closed, and you're not pressing the brake pedal.

Ford Power-Up delivers software updates that are designed to make your Ford Bronco® SUV better over time.

2023 MY Bronco
(TCU)
4.2.1.2

More enhancements are on the way.

We've made some minor updates to keep everything running smoothly, including improvements to FordPass® Connect modem. There's nothing you need to do.

Ford Power-Up delivers software updates that are designed to help make your Ford Bronco® SUV better over time.
